PROFILE

I'm a passionate Full-Stack Developer with experience in both front-end and backend development. My approach to web development is all about dedicating my energy to crafting one fantastic project at a time, prioritizing quality over quantity. When I'm not coding, you'll find me indulging in my hobbies: gaming, cycling, and swimming, which keep me balanced and inspire my creativity. I'm a firm believer in continuous learning and growth, exploring new technologies and tackling coding challenges whenever I can.

WORK EXPERIENCE

Front-End Developer

aDME

2023

- Designed visually appealing user interfaces with React JS, ensuring a user-friendly experience.
- Collaborated closely with UX designers to bring wireframes to life in Figma, aligning design with development seamlessly.
- Conducted A/B testing to refine user interfaces and improve user engagement.
- Implemented responsive design principles for compatibility across devices and browsers.
- Maintained and optimized the codebase for efficiency and performance.
- Acted as a designer by crafting beautiful UIs in Figma, aligning design with development seamlessly.
- Conducted user feedback sessions, refining designs based on user preferences and behavior.
- Implemented design systems, ensuring a consistent look and feel across all web properties.
- Actively participated in code reviews, providing constructive feedback to peers and ensuring code quality.

Full-Stack MERN Developer

Rework AI

2023

- Engineered dynamic dashboards with the MERN stack, providing real-time insights to users.
- Established secure user authentication protocols for data protection and user trust.
- Successfully integrated third-party APIs to expand the platform's functionality.
- Collaborated seamlessly with backend developers to create a unified front-to-back-end experience.
- Actively contributed to architectural decisions, ensuring scalability and maintainability.
- Designed and implemented data visualization features for enhanced user understanding.
- Led the development of interactive customer feedback forms to collect valuable insights.
- Conducted thorough testing and debugging, ensuring a smooth user experience.
- Maintained detailed documentation for code and APIs, facilitating knowledge transfer within the team.
